2022 CWHW Research Forum Schedule

8:30 – 8:45  Welcome

8:45 – 9:30  Keynote Speaker: Dr. Sandra Echeverría

Promoting Active Living Among Latinas: The Critical Role of Interdisciplinary, Multi-sector Research to Address Inequities

Dr. Sandra E. Echeverría earned her Ph.D. in epidemiology from Columbia University, Mailman School of Public Health and is a tenured Associate Professor in Public Health Education, at the University of North Carolina, Greensboro. As a social epidemiologist, her research program examines how built environment, immigrant, and sociopolitical determinants influence cardiovascular health in oppressed groups, particularly communities of Latin American origin. She focuses on understanding how the social environment reinforces health behaviors such as physical activity and works with community partners in the translation of research evidence to intervene on social and environmental injustices shaping cardiovascular health and risk factors. In this talk, Dr. Echeverría will highlight how an interdisciplinary, multi-sector research program can advance understanding and intervention approaches to promote active living among Latinas living in the United States. She will present an overview of physical activity inequities for Latinas, how physical activity intersects with structural conditions, and how she has shaped her research program to include collaborators from different disciplines, sectors, and emerging public health professionals (i.e., students).

9:30 – 9:50  Center for Women’s Health and Wellness Research Updates

9:50 – 9:55  Break

9:55 – 10:55  Abstract Presentations

Genetic counseling narratives: Experiences of African American Women with Breast Cancer

Presenter: Janice Davis-Ketchmore

Parent Texting & Emerging Adult Perceived Parental Support of Autonomy

Presenter: Morgan Brown

Female Athlete Triad Risk Among Active Premenopausal Women

Presenter: Sam Goldenstein

The Influence of Menstrual Cycle Phase on Fluid Intake and Urinary Hydration Markers

Presenter: Mitchell Zaplatosch

10:55 – 11:00  Break

11:00 – 11:50  Roundtable Discussions, Networking Q&A
Real-time Assessment of Health Behaviors: Understanding Women's Daily Lives
   Facilitators: Drs. Jaclyn Maher and Michaeline Jensen

Roundtable Discussion: Biopsychosocial Determinants of Maternal Health
   Facilitators: Drs. Crystal Epstein and Forgive Avorgbedor

12:00 – 1:30 Lunch with a Panel Discussion

Stress and Resilience Among Women in the Academy

The panel discussion includes administration, staff, faculty, and students
Hosted in: Nursing and Institutional Building Rm 124
